

FOREWORD

This annual report about the year 2002 contains information on publications, seminars and guests. A list of DCAMM reports number 1-612 including the final references and also a list of the DCAMM S-reports number S1-S84 is available on request.

The report serves mainly as reference and documentation for accomplished activities. Information on the actual activities are available on our homepage: www.mek.dtu.dk and on the homepages of the cooperating departments of the center.

In the year 2002 the DCAMM Graduate Research School gave 3 advanced courses:

- 1) Stability of Ships, 10-18 June
- 2) Optimal designs- Size, Shape and Topology, 20-28 June
- 3) Machine Acoustics, 20-24 August

The school was visited by 3 guestprofessors, 8 guestlecturers, 3 gueststudents and 63 course participants. With very limited financial support, the school continues its activities in year 2003.

The departments cooperating within DCAMM are:

from Technical University of Denmark:

IMM: Dept. of Informatics and Mathematical Modelling

MAT: Dept. of Mathematics

MEK-ET: Dept. of Mechanical Engineering, Fluid Mechanics and Energy Egngn.

MEK-FAM: Dept. of Mechanical Engineering, Solid Mechanics

MEK-K&P: Dept. of Mechanical Engineering, Engineering Design

MEK-MT: Dept. of Mechanical Engineering, Maritime Engineering

MEK-VB: Dept. of Mechanical Engineering, Coastal and River Eng.

from Aalborg University:

IFB-AAU: Building Technology and Structural Engineering

IME-AAU: Institute of Mechanical Engineering

In 2002 the center organized an international Symposium on "Challenges in Applied Mechanics", held here in Kgs. Lyngby at Hotel Frederiksdal. A short report from the Symposium is given on page 36.

I thank our international contacts for their support and inspirations.

Pauli Pedersen

9. DCAMM INTERNATIONAL SYMPOSIUM

A DCAMM International Symposium on
CHALLENGES in APPLIED MECHANICS

was held over the three days July 25th to July 27th at Hotel Frederiksdal here in Kgs. Lyngby. Combined with the symposium the participants gathered in the event of Frithiof Niordson's 80'th birthday. Financial support of the Symposium received from the Mønsted Foundation and from DTU is gratefully acknowledged.

There were 60 participants; of these participants 33 were from 15 different foreign countries.

Nine sessions with the session's titles:

- Fluid – Solid Mechanics
- Fracture, Cracks and Contact
- Material Mechanics of Composites
- Laminates and Delaminations
- Length Scales in Plasticity
- Biomechanics and Waves
- Large and Small
- Structural and Material Optimization
- Non-linear Dynamics and Multibody Systems

included in all 26 lectures. In addition a poster-session was held. A Frithiof Niordson volume with proceedings from the Symposium is printed. Copies of this book of 274 pages is available from the DCAMM secretariat at the price of 40 \$ or €.
